

**To:** All Heritage Provider Network Affiliate Provider Groups

**From:** Heritage Provider Network Utilization Management Department

**Date:** June 11, 2018

**Re:** Senate Bill 97 takes effect July 1--Mandatory Reporting of Diagnosing, Treating Parkinson's Disease to CA Dept. of Public Health HPN Policy 672020

**Background:**

California Senate Bill No. 97; CHAPTER 52; page 3 (6) (attached) takes effect 7/1/2018 making it mandatory for all health care providers diagnosing or providing treatment to Parkinson's disease patients to report each case of Parkinson's disease to the California Department of Public Health (CDPH) beginning July 1, 2018.

As the delegated entity for our network contracts, we are responsible to be sure to publish this information for all of our providers to see.

**Operational Instruction/Guidance:**

**All providers required to report must first register with CDPH through the designated provider gateway, which is available on the CDPH Parkinson's Disease web page, to obtain the Fact Sheet for additional information.** HPN Clinical Services suggests that you place this information on your provider network access webpage or if you are in a system where it can be displayed, that you display the information there.

**Important Dates**

**April, 2018:** CPDR Implementation Guide released (see below under Implementation Resources). This guide provides the necessary specifications for reporting Parkinson's Disease data to CPDR, and outlines who is required to report, the timing of reporting, and the methods for transmitting data.
